See the Dar-Un-Noor difference...

The “Dar-Un-Noor Difference” is certifiable:

Dar-Un-Noor staff is with your family every step of the way as your student progresses through their academic career and we prepare them for middle school, high school, and college.

High school students get an early start on their college experience: Students are encouraged to join our dual-enrollment program where eligible students can take college courses before they graduate high school. We are offering AP courses with which students may also earn college credits. College admission mock tests are provided frequently. Students also receive one-on-one guidance with college applications.

We are your extended family and educational portal to help you and your student achieve greatness!
